

# GOOD TASTE IS IN THE AIR

## ATMOSPHERIC WATER GENERATOR

This innovative product provides a sustainable source of fresh, clean drinking water by extracting moisture from the air; its advanced filtering, sanitizing and cooling technology ensures remineralized water of the highest quality while minimizing energy consumption.

CE CB

## KEY FEATURES

### Water Output

Up to 10L/day, 6L tank

### Power

400W (110/220V)

### Environment

10-40°C / 30-90% RH

### Size

35×44.5×46cm 22kg

### Cooling

Crisp 10°C water

### Water Filtration

Ozone, silver AG carbon

### Healthy Water

Remineralized for hydration

### Smart Features

App enabled, BLE & WiFi
